

# Hackathon Day 1

It's day 1 where we plan and design how our marketplace should be

Dated: 15 Jan 2025

## Day 1 Hackathon Marketplace builder:-

### E-Commerce chairs website:-

Template: 8 :

\* Marketplace data schema:

User Table (Primary key) Username Email Password Role Enum ('buyer', 'seller')
---

This table stores information about user.

\* Order Table

Total price Quantity (Pending, shipped, delivered) Order date
--

This table tracks all the orders made by buyers.

\* Reviews Table:

Rating Comment Review-date
----------------------------------

After purchase buyers can leave reviews for chairs.

\* Chair Table:

Title Description Price * category (Office, dining, recliner, outdoor)
--

This table contains the details of chairs listed by sellers.

### Goals:-

- Easy to purchase buy happily and obviously in affordable price.
- Build a user-friendly marketplace.

### Target Audience:

Our marketplace targets individuals seeking comfortable and stylish chairs for their home and office. Our caters to students and homemaker who are looking for quality and affordability.
